draft Glyphosate Summary for House Ag Briefing (clean after tm comments).docx

Hi Kaythi,

This is the version we have right now—it is still draft. Tom has looked at this, but not sure if Neil has.

Thanks,

Khue Nguyen

Hi Tom and Khue,

How's this coming along? Can I help in any way? Rick has been asking to see this one as soon as possible.

The sooner the better, so could you get it to Anne and me latest by Monday morning? The front office has to send them over to OCSPP on Monday.

Thanks,

Kaythi

Kaythi,

When do you need this by?

...

We'll want to run it thru Mike before it gets to you,

That should be fine! The administrator could certainly use that sort of general summary for her testimony for the committee.

Hi Kaythi,

We could put together a brief summary for glyphosate and where it is in the reg review process, but since the risk assessments have not come out and there are some items still up for internal deliberation, I suppose we would not go into detail about the risk assessments themselves. Would that be ok—it would not look very exciting or glamorous like the dicotophos proposal.

Thanks,

Khue Nguyen

Hi Khue,

I'm covering for Dian on glyphosate. We have to put together briefing papers for the House Ag Committee on a variety of topics and glyphosate is one of them. Do you have anything already approved that could work for this exercise? I've attached two examples, one that we were given on climate change for a past briefing and the chlorpyrifos one drafted for this briefing.

Let me know!

Thanks,

Kaythi
